

Making the RIGHT Choice!

Have you ever made a poor choice? Perhaps even more than once? Attend this informative workshop and refresh your skills on how to make the right choices with respect to your aviation operations! We all make mistakes, but we want to minimize the mistakes we make while flying. This exclusive briefing will discuss the practical application of good decision making (ADM) and risk management tools offered by the FAA. The new Practical Test Standards require pilots to demonstrate their knowledge of ADM and to utilize risk management strategies when planning a flight and while in the air. Click on the link below to register for this exciting safety briefing TODAY!
